She'd found a fossil.  
A real one.

When she was 10, she found a fossil of a small, four-legged animal. She was so excited, she showed it to her mother, who was a geologist. Her mother told her that it was a fossil of a small, four-legged animal, and that it was a fossil of a small, four-legged animal.

*by Lisa Schwarzbaum*

# The Lady's Imagination

The most publicly sexual young woman accepts our respect

by JAMES CRAMER

They say we should pretend that we're not watching *Sex and the City*. But we are. And we're watching it with a different eye than we did when it first came out. We're watching it with a more sophisticated, more discerning eye. We're watching it with a more mature eye.

It's not just the show's sexual content that's changed our perspective. It's the show's portrayal of women. It's the show's depiction of women who are not just sexual beings, but also intelligent, ambitious, and complex individuals.

**THE LADY'S MANTION** is a show that has changed the way we look at women. It's a show that has given us a new role model. It's a show that has shown us that women can be sexy, smart, and successful.

The show's portrayal of women is what has made it so popular. It's a show that has shown us that women can be sexy, smart, and successful. It's a show that has given us a new role model. It's a show that has shown us that women can be sexy, smart, and successful.

the modern taste  
is for light refreshment

Did you know that the average woman's waistline is only an average 36 inches wide?

Now, here is the other interesting fact: 60% of all women agree that they feel as good as if they all the while as if they were drinking

There's just nothing else out there. But there are some things you can do. You can feel as good as if they all the while as if they were drinking

To illustrate, let us let two ladies. One lady is sitting at the table. The other lady is sitting at the table. The other lady is sitting at the table.

So, perhaps it is time to get rid of the

The modern taste  
is for light refreshment.

The taste is the sophisticated pleasure  
of a new generation that is not at  
all susceptible to caffeine.

For it demonstrates an inherent  
taste for the things that stimulate us  
without the usual overstimulation  
and pain.

That's how they long for a drink  
without knowing they are in some  
way being deceived. They are  
not a generation of the  
underdog but of the  
understander.

And it is an attitude which says  
the only "refreshment" is not just  
that it tastes fine, good and  
great. It makes them think.

And that's the reason for  
light refreshment.
